JOURNAL OF IMMUNOLOGICAL METHODS

Contents of volume 203 (1997)

Number 1 – 11 April 1997

Research reports

Use of cryopreserved lymphocytes for assessment of the immunological effects of interferon therapy in renal cell carcinoma patients
V. Sobota, J. Bubeník, M. Indrová, V. Vlk and J. Jakoubková (Czech Republic) 1

A model system for detection and isolation of a tumor cell surface antigen using antibody phage display
S. Pereira, H. Maruyama, D. Siegel, P. Van Belle, D. Elder, P. Curtis and D. Herlyn (USA) 11

Separation by counterflow centrifugal elutriation and analysis of T- and B-lymphocytic cell lines in progressive stages of cell division cycle
K.L. Donaldson, A. McShea and A.F. Wahl (USA) 25

Novel method for following lymphocyte traffic in mice using [^{3}H]glycerol labeling
G. Constantin, C. Laudanna and E.C. Butcher (USA) 35

Dot-blot analysis of the degree of covalent modification of proteins and antibodies at amino groups
T. Morçöl, A. Subramanian and W.H. Velander (USA) 45

The complex between urokinase plasminogen activator and its type-1 inhibitor in breast cancer extracts quantitated by ELISA
A.N. Pedersen, G. Høyer-Hansen, N. Brünner, G.M. Clark, B. Larsen, H.S. Poulsen, K. Danø and R.W. Stephens (Denmark, USA) 55

Measurement of relative quantities of different HLA-A and -B mRNAs in cells by reverse transcription-polymerase chain reaction and denaturing gradient gel electrophoresis
K. Liu and K.J. Kao (USA) 67

Optimization of murine CD8$^+$ cytotoxic T-lymphocyte responses to pseudorabies virus
C. Depierreux, I. Graff, V. Lancelot, M. Denis, A. Vanderplasschen, E. Hanon, P.P. Pastoret and C. Swysen (Belgium) 77

Immunocytochemical and flow cytofluorimetric detection of intracellular IL-4, IL-5 and IFN-γ: applications using blood- and airway-derived cells
F.H. Krouwels, R.E.T. Nocker, M. Snoek, R. Lutter, J.S. Van der Zee, F.R. Weller, H.M. Jansen and T.A. Out (Netherlands) 89

Cell–cell adherence as a selection method for the generation of anti-melanoma monoclonal antibodies
A.M. Barral, A. Fernández, M.E. Faxas, X. Pérez, C.A. García and A. Rosén (Cuba, Sweden) 103

Notes to authors 111

Number 2 – 25 April 1997

Research reports

Use of a modified binding model for the investigation of affinity dependence on antibody concentration in immunoassay systems
P. Strohner, D. Sarrach and J.G. Reich (Germany) 113

Use of the acute phase serum amyloid A2 (*SAA2*) gene promoter in the analysis of pro- and anti-inflammatory mediators: differential kinetics of *SAA2* promoter induction by IL-1β and TNF-α compared to IL-6
C.M. Uhlar, S. Grehan, D.M. Steel, A. Steinkasserer and A.S. Whitehead (Ireland, UK) 123

Baculovirus cDNA libraries for expression cloning of genes encoding cell-surface antigens
L. Granziero, P. Nelboeck, M. Bedoucha, A. Lanzavecchia and H.H. Reid (Switzerland) 131

The use of computer-assisted video image analysis for the quantification of CD8$^+$ T lymphocytes producing tumor necrosis factor α spots in response to peptide antigens
W. Herr, B. Linn, N. Leister, E. Wandel, K.-H. Meyer zum Büschenfelde and T. Wölfel (Germany) 141

The Fab region of IgG2 human myeloma proteins does not bear the streptococcal protein G-specific determinant
F. Perosa, G. Luccarelli, M. Neri and F. Dammacco (Italy) 153
An ELISA for selectins based on binding to a physiological ligand
C.R. Bertozzi, M.S. Singer and S.D. Rosen (USA) 157
An improved, ultrasensitive method for the detection of IgM oligoclonal bands in cerebrospinal fluid
C.A.W. Rijcken, E.J. Thompson and A.W. Teelken (Netherlands, UK) 167
Flow-cytometric screening for the modulation of receptor-mediated endocytosis in human dendritic cells: implications for the development of an in vitro technique for predictive testing of contact sensitizers
D. Becker, U. Kühn, U. Lempertz, A. Enk, J. Saloga and J. Knop (Germany) 171
A rapid method for semiquantitative analysis of the human Vβ-repertoire using TaqMan^{R} PCR
R. Lang, K. Pfeffer, H. Wagner and K. Heeg (Germany) 181
Combined immunomagnetic cell sorting and ELISPOT assay for the phenotypic characterization of specific antibody-forming cells
M. Lakew, I. Nordström, C. Czerkinsky and M. Quiding-Järbrink (Sweden, Ethiopia, France) 193
Detection of PNA/DNA hybrid molecules by antibody Fab fragments isolated from a phage display library
M.H. Hansen, L.L. Sode, J.J. Hyldig-Nielsen and J. Engberg (Denmark, USA) 199

Contents of volume 203 209

Notes to authors 211
